- d. Special coverage of areas or objectives as determined by COMOR or higher authority.

At its meeting of 21 October the USIB agreed that every effort should be made to acquire comprehensive U-2 coverage of Cuba [REDACTED] (Ref. USIB-D-41. 14/196). In an effort to take best advantage of weather, missions were flown on 26, 27, 29, and 31 October. Cloud cover was encountered, however, so that computed area coverage for the four days amounted to only 42 percent.

- e. In response to these reconnaissance requirements, at least two flights per week will be conducted to insure the collection of information [REDACTED]

25X1

Three missions were flown the first week and four the second.

3. Conclusions: Fulfillment of the requirements stated in the referenced directives was generally satisfactory during the two-week period. Because of weather, however, the special coverage described in 2a, above, could not be completed [REDACTED]
